

Commodore's Report

December 2014

After extensive discussions with various board members I completed the Members survey and created an account at Kwiksurveys.com and created an online survey. I mailed an invitation to all the members on the mailing list to complete the survey, and as of December 8<sup>th</sup> there had been 82 responses to the survey. I am going to wait another couple of weeks to create an analysis of the survey and circulate the responses to the board.

The insurance company has indicated that they have settled the \$3000 claim for damage to the launch and have issued a check to the club for \$2500 which reflects our \$500 deductible.

A "how to join Portsmouth Yacht Club" section has been added to the club website detailing the steps necessary to become a member.

**Members need to be reminded that they can only sponsor two applicants in a 12 month period.**

Respectfully submitted

Dan Gingras
