Mike.. Glenn.. Wes

Frieda has agreed to train as the PYC Steward. For the 2018 season, I will become the General Manager while showing Frieda all the things that the job entails. She will get recertified as a launch operator as well.

Frieda will work at least 40 hours every week. She is requesting a salary of \$45000 to be paid weekly for 52 weeks from Docks in, 2018 to Docks in, 2019.

Dockmaster Mike Comeau is requesting \$20 per hour, up from \$15.

**** I only make \$40000****

I'm at PYC 7 days a week

Glenn -

I was out of the office yesterday but will be back on Monday. I have the W 2 information with names and total pay and I also have the hourly rates. All employees except Jerry are paid hourly.

These are the pay rates and total pay for all employees last year. Please remember that payroll information like this is confidential and should not be generally distributed. There are privacy laws against that. It probably shouldn't go any farther than you, me and Wes. Be sure Wes understands that as well. He is, of course, responsible for setting employee pay rates for this year.
