Dear Commodore,

I hope you and yours are safe and well.

I appreciate all your efforts and communication as we navigate this challenging environment and invisible threat.

After speaking with several members who are privileged enough to have a slip or mooring, I am writing to request if the Board can relax the Members Only restriction on the Clubhouse Property.

The ask is to relax the members only requirement to allow extended family and friends when accompanied by a board member on a boat or vessel.

I believe we can maintain the highest levels of safety and enjoyment to the membership by relaxing the members only restriction.

- Require membership to self-screen any guests by asking some specific questions about exposure and health. I'd like to see a list of questions from the CDC and CDC.
- Require guests of members to wear masks and proceed directly from the parking lot to the Dock or slips for board members.
- Maintain the current guidelines for the Clubhouse.

I would also add picking people up at the Pierce Island boat ramp is very risky to dock at due to the current situation. We would have to do so.

If we kept a log of all visitors/guests we would at least have a record of who has been there.

I appreciate you taking the time to consider my request and should you want to discuss it further I am available for a phone call.

Best Regards,

Keven Niland

Dear Kevin,

Thank you for your thoughtful letter. I am compiling member communications for the BOD to address  
Your letter will be shared to help the BOD address various requests and determine a reasonable way  
I appreciate your patience as we work out operational details and keep everyone as safe as we can.

Best to you and your family,  
Pat Dowey
