

Commodore's Update July 12, 2020

Dear Members,

The following are the changes in Club operations beginning Monday, July 13, 2020. Please review past updates to insure your understanding of the current operating conditions. The BOD is closely monitoring the COVID -19 situation and are working safely open the Club to more activities as conditions warrant. As always, use of PYC is at your own risk.

1. Parking guidance has not changed and tickets are being issued.

The Town of New Castle has allowed PYC members (not guests) to park along Piscataqua Street only as far as the white fence goes. A sticker for PYC must be visible in the rear driver side or the car will be ticketed or towed. The club parking lot and Piscataqua Street parking together allow for approximately 26 vehicles.

Please be considerate. One car per membership and be aware of accurate parking in designated spaces.

2.) Beginning Monday July 13th the following changes for increased use are being implemented:

* Clubhouse and dock hours are being extended 8:00 AM to 8:00 PM, seven days a week.

* The grills and lobster pot will be available during operating hours only. Bring everything you need for grilling and clean up after you finish. Kitchen and bar areas are closed.

* Lockers may be accessed for storage.

* Please clean the area before and after use. Small trash bags are available and you may dispose of your trash in the dumpster. Cleaning supplies are available in the Clubhouse and on the deck.

* Staff will be cleaning the Clubhouse at 8:00 AM and then the bathrooms every two hours. They will not be cleaning the grills.

* The decks will be open after the Clubhouse closes. NO access to bathrooms after 8:00PM.

* Coffee and water will be available when the Clubhouse is open.

3.) Please respect everyone's right to use the Club safely. Wear a mask, keep social distance and clean up after yourself! The BOD is monitoring the situation and will continue to review guidelines as appropriate.

My very best to each of you,
Commodore Pat Dowey
